BAIRD One Year Evidence Based & Clinical Dental Implant Course

This is a nine module intensive implant course which meets the General Dental Council- UK requirement in implant training in Britain and qualifies the course delegates to gain accredited 200 CPD hours by the BAIRD Academy upon finishing the course academic and clinical requirements in addition to the course certificate by the British Academy upon passing the course written exam.

The course modules will take place on one Friday and Saturday of each month. On these two long days (9:00 - 19:00), will attend interactive seminars and hands-on workshops on models and animal heads. Participants will undergo their live clinical training when they will attend live surgery and also have the opportunity to meet their patients provided by the course and start their implant treatment under direct supervision by BAIRD approved mentors at the College of Medicine & Dentistry - Ulster University - Birmingham.

The Course Assessment

To meet the General Dental Council and The British Academy of Implant and Restorative Dentistry requirements for dental implant training in the UK, formative assessment and feedback will be provided in seminars and after case study discussions. Summative assessment will be carried out via a multiple choice questionnaire at the end of the course. Delegates are expected to document their clinical case(s) and present one of their cases in a viva exam in front of our external examiner from one of the UK/International Universities and our course director; Prof Esposito - president of The BAIRD Academy

BAIRD Clinical Mentoring Scheme

As a BAIRD participants and graduates you are highly encouraged to enrol into the exclusive BAIRD mentoring scheme which is available at a

discounted rate to BAIRD members when a group of highly qualified mentors will be available to visit you at your practice and support you during your in-house implant surgical and prosthetic treatment offered to your patients. Our course graduates usually aim to place and restore more than 30 implants in the first year .You will also be given all the marketing support you need to pursue an implant career successfully.

"I am a current student on the BAIRD course and have thoroughly enjoyed the whole experience. I have attended multiple courses ranging from restorative to orthodontics to sedation but haven't met anyone quite like the course directors. I have found them to be extremely passionate about implantology but at the same time very humble and honest about their failures so that we can learn from them. We have had the

privilege of meeting and learning from many world renowned figures in implantology. The course caters for all levels with key concepts being continually revised until they are ingrained in our memories and spending ample time polishing our surgical skills. I can't compare to other implant courses but have seen many of my colleagues attend courses and not place implants afterwards. I am confident that following this course we will all be well on our way to becoming fully fledged implantologists and so would wholeheartedly recommend this course to anyone that is hoping to tread this path. Come and stand on the shoulders of giants" Dr Jabbar Hussain (BAIRD 2020)

Dr Jonathan Glassby
(BAIRD 2016 graduate) discussing his implant treatment plan with Dr Maghaireh as part of BAIRD mentoring scheme.

Glassby Dental Practice- York, October 2017

- While every effort will be given to fix the modules dates, the course organisers might on the off chance, change the module(s) dates on a short notice, in case of lecturers canceling due to private circumstances.
- **No Refunds will be allowed of your deposit .**
- Refunds will only be given if the course is postponed or cancelled. In which case monies paid will be returned as soon as possible and in all cases within two working weeks of any cancellation notice. Once the course starts, on the off chance if a module is cancelled then you will not receive a refund, if this occurs then the module will be rescheduled. No interest or compensation will be paid in addition to original funds. The course organisers cannot accept responsibility for any costs incurred outside those submitted as fees for the course, including but not limited to hotel reservations, travel tickets, days lost from work or equipment purchased for the purpose of the course.
